Okay thanks Barb, it's very minor changes at the end of the letter.

Hi Barb and Dan,

After speaking with Barb last week concerning our cover letter to the Seneca Nation and whether we should conclude consultation or not, I've changed some of the language in the cover letter to them that's meant to accompany our Response to Comments. I essentially took out the portion that said that EPA wishes to conclude consultation. In accordance with EPA's Policy on Consultation and Coordination with Indian Tribes, we will conclude our consultation with the Seneca Nation when we make a final permit decision. I've attached the revised cover letter for your review.

Thank you both so much for your help.
